Allowable Subject Matter

2. Claims 1 – 22 are now allowed.
3. The following is an examiner's statement of reasons for allowance:

Claims 1 – 22 recite, inter alia, a method of forming a copper dual damascene with improved barrier layer thickness uniformity and improved electrical resistivity comprising the step of a plasma etch treatment which improves the barrier layer thickness uniformity along trench and via sidewalls. The art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.
